

MONTESSORI FOR REAL LIFE · FREE BONUS

Picture Routine *Cards*

Morning and bedtime charts your toddler can follow, plus single cards to cut out and arrange in your own order.

A companion to **The Everyday Montessori Toddler**, 18 months to 3 years.
Print, hang at your child's eye level, and let them show you what comes next.

Let the chart *do the reminding*

- 1 Hang the chart at your toddler's eye level, by the bed, in the bathroom or at the front door.
- 2 Walk through it together for the first few days, pointing to each picture.
- 3 Then ask, "What comes next?" and let them show you.
- 4 Use the single cards to build your own order, with a strip of tape or a ribbon and clothespins.
